

Home Slippers

These felt slippers are so cute that you will never want to take them off! They can be made to fit any feet size - simply cut out the front section of the slipper sole and draw around the back of your foot to make the correct size.

Skill level:
Expert

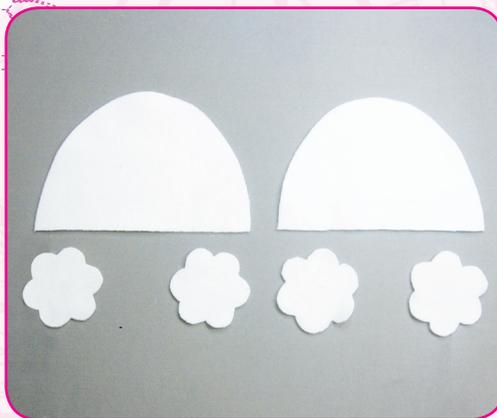

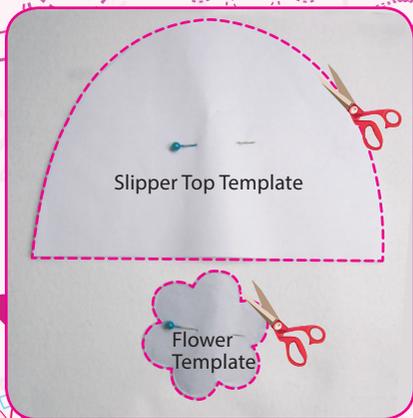

Time:
30 to 35 Min.

You Will Need

- Templates of slipper top, flowers, small circle and slipper bottom (provided)
- Thick Craft Felt, 40 x 12 inches (101.6 x 30.4 cm)
- Scrap of Grey colour Felt Fabric 5 x 5 inches (12.7 x 12.7 cm)
- 4 Buttons for the eyes
- A4 Size Paper
- 1/2 meter Batting fabric
- Ribbon 14 inches (35.5 cm) long and 1/4 inch wide
- Fabric Pencil, Glue and Pins
- Sewing Thread

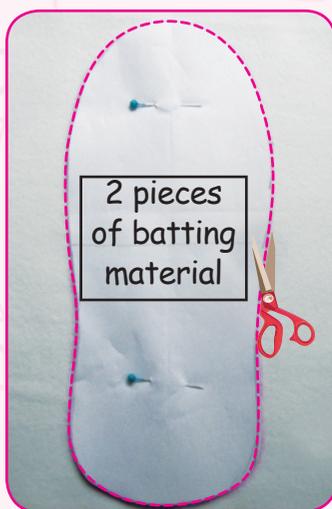

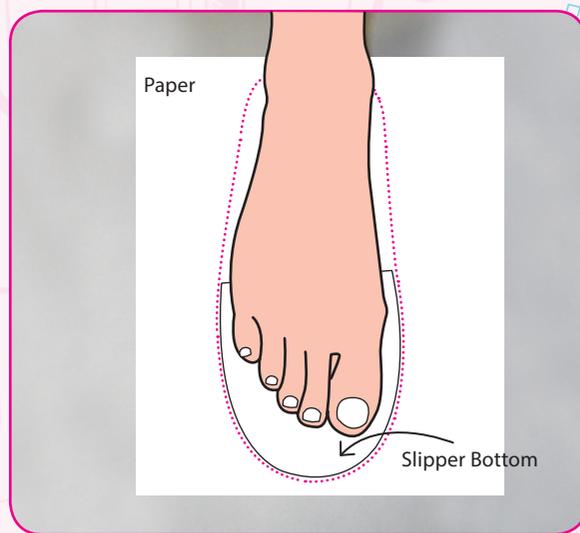

STEP 1:

Pin and cut the slipper top and flower template on the white colour felt fabric. Repeat to have two pieces of slipper tops and 4 pieces of flowers, one pair for each foot.

STEP 2:

Put the paper and the slipper bottom template on the floor and draw (slightly outwards) around your foot to make a new template, name it as sole template.

STEP 3:

Pin the sole template over the cream coloured felt fabric and cut 4 pieces. Similarly cut 2 pieces of batting* material.

*Batting is a soft layer of material. It is used for stuffing or padding.

STEP 4:

Now, sandwich the batting between the 2 pieces of cream coloured felt fabric and pin to secure the position. Repeat for the other foot.

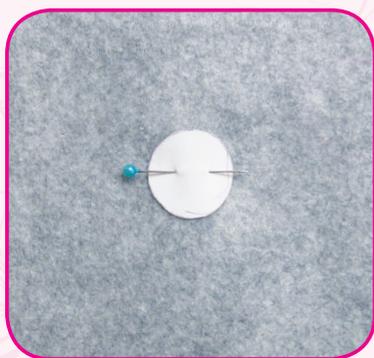

STEP 5A:

Using the circle template pin and cut the four circular shapes on the grey coloured felt fabric.

STEP 5B: Similarly using the flower template pin and cut the 4 flower shapes on the cream colour felt fabric.

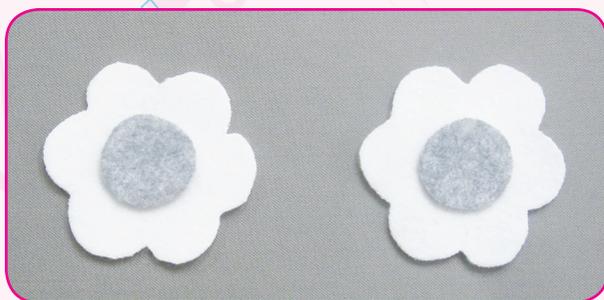

Step 5A

Step 5A

Step 5B

STEP 6:

To make the eyes, glue the felt circle over the flower. Let it dry for a few minutes. Repeat for the other pair.

STEP 7:

Hand-stitch both the eye buttons on slipper top, as shown.

STEP 8:

Cut the ribbon with pinking scissors into two pieces, each 3 1/2 inches (8.8 cm) long. As shown make a crisscross and glue or hand stitch a button on the center to make the nose. Repeat on, the other piece.

STEP 9:

Pin the bottom sole and slipper tops, ensuring their edges match.

STEP 10:

Set the machine for basting* (select maximum stitch length on your machine) and stitch around the slipper shapes, as shown.

*Basting refers to sewing temporary long stitches, which can be removed later. This method is used to fix the position of fabrics together for alignment.

STEP 11:

Sew an edge stitch (it is marked as E on your machine) all around. Stitch slowly around the curves. Be careful not to let the machine needle run off the felt.

YOUR FUN AND FUNKY SLIPPERS ARE READY.
