

Wrap Around Cape

Create a stylish reversible Wrap Around Cape in just six easy steps.

Time:
15 to 25 Min.

MACHINE: Usha Janome
Automatic Zig-Zag machine

CATEGORY : Apparels

NOTE: The border design has been created using Usha Janome Memory Craft 15000. You can create a range of wonderful embroidery designs easily, on the Usha Janome Memory Craft Machine series.

Skill level:
Intermediate

YOU WILL NEED

- 24 x 31 inches Flannel fabric
- 24 x 31 inches lining fabric
- 8 Buttons
- Thread to match fabric
- Pins & Measuring Tape
- Fabric Scissors & Thread Trimmer

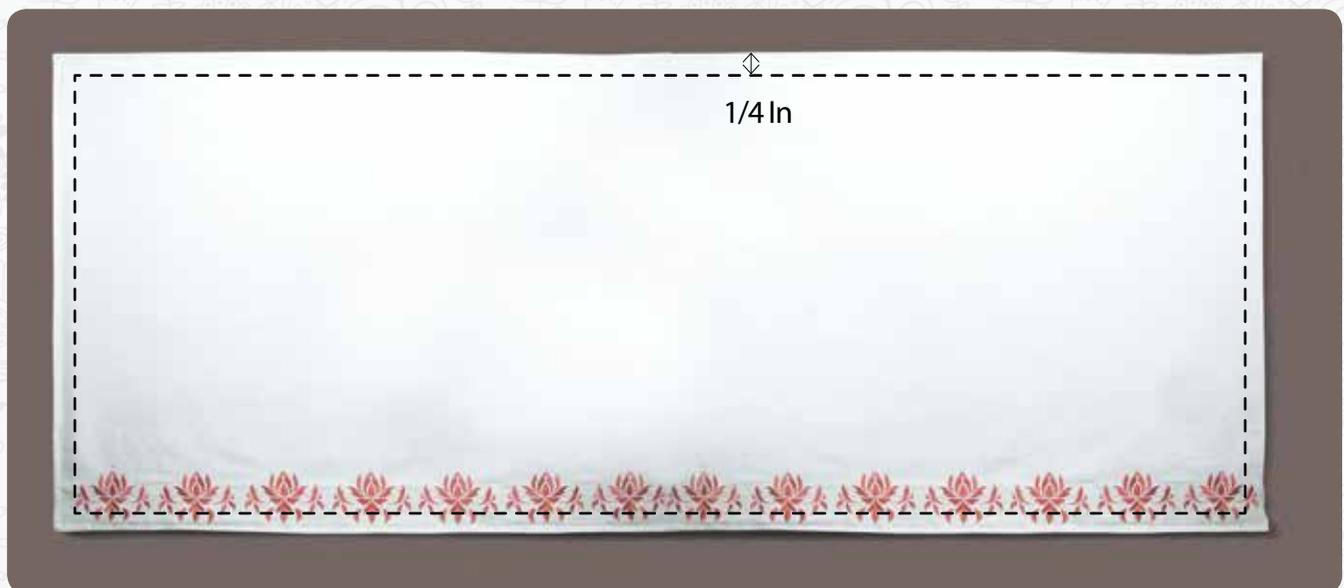

TIP: Use the standard 2.5 stitch length. Remember to press the Reverse Button after stitching both the ends of the opening, to create a Lock stitch*

STEP 1: Lay the two layers of fabric - the lining and the main fabric – one on top of the other keeping their right sides together.

STEP 2: Sew along the sides, leaving a gap of 6-inches in the middle, as shown. Trim all the corners at an angle, making sure not to cut the stitches.

* **Lock Stitch:** A Lock Stitch is used to strengthen the beginning and the end stitches of the seam. Lock Stitch keeps the seam from tearing apart.

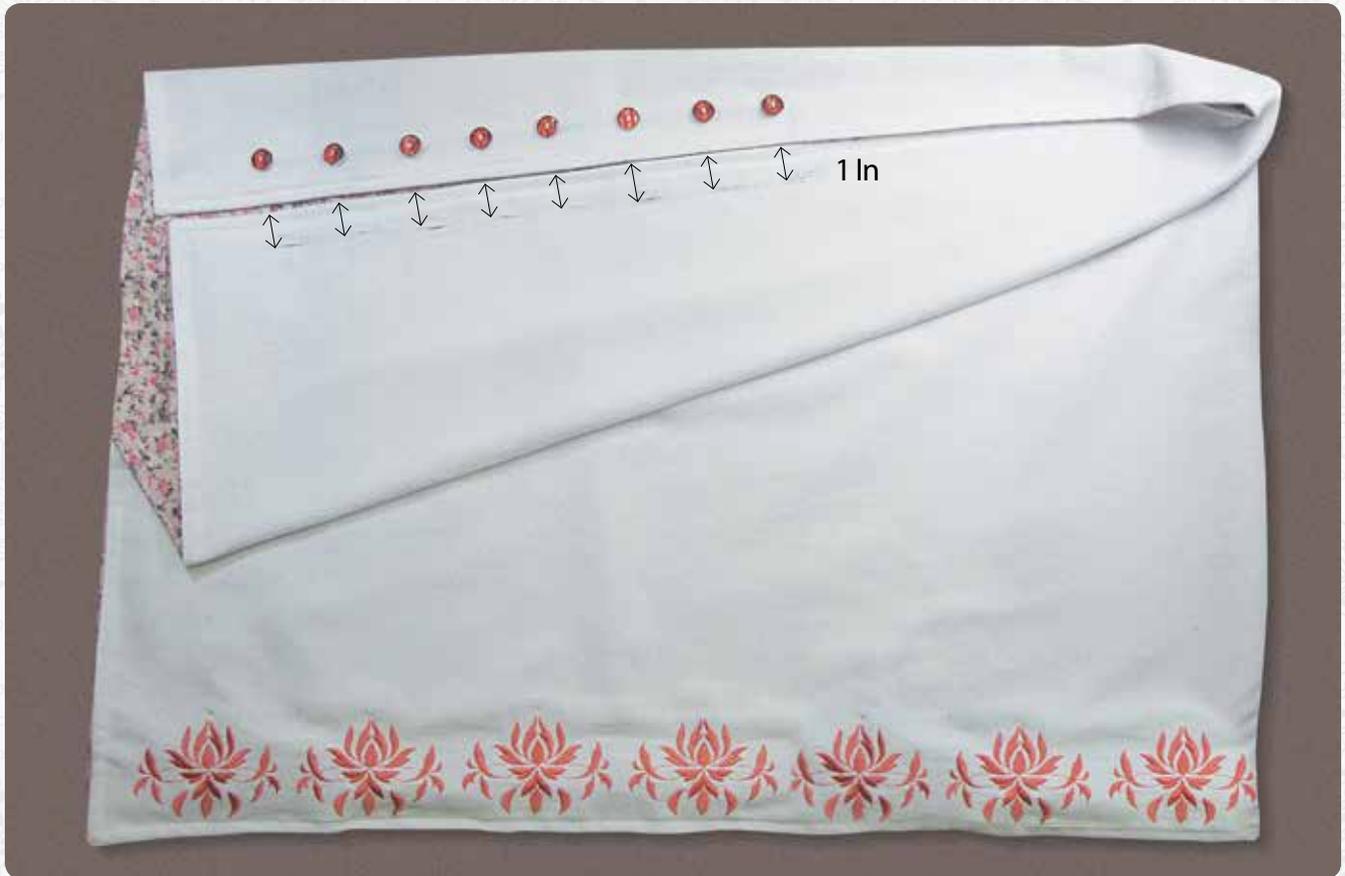

STEP 3: Turn the fabric right side out through the 6 inches gap you had left. Thereafter close the opening by stitching it shut. Then sew all the four sides of the fabric, leaving a space of ¼ inch distance from the edges.

STEP 4: Fold the fabric in half widthwise and measure 12 inches on the longer side from the folded edge and mark a point. This is for the neck opening.

STEP 5: Beginning at the Neck opening mark make 8 Buttonholes one after the other using the Selector Dial on your machine. The buttonholes should be made leaving a gap of 1 inch from the edge of the garment. Space the 8 buttonholes with a gap of 1 inch between each.

STEP 6: On the other edge sew 8 buttons corresponding them to the button holes.

Button up and get ready to flaunt your Cape.
